Option entry to test: **RESTANDARDIZE VACCINE TABLE BI VACCINE TABLE RESTAND
Restandardize Vaccine Table**

This function is no longer used to import the Standard Immunization file.
It has been supplanted by the MSC IMMUNIZATION LOAD option. That option
should be run first to import updates from the CDC.

This process will continue by updating the IMMUNIZATION file to match
the Standardized file in it's current state. If new updates are desired
you should run the MSC IMMUNZATION LOAD option and then re-run this option.

Restandardization of Vaccine Table complete.
Restandardization of Manufacturer Table complete.

Press ENTER/RETURN to continue or "^" to exit:
