The High Dose Medication menu option allows a setup to be done on the Pharmacy Orderable Item that would alert the ordering providers if a medication dose may be too high for a particular patient based on weight or age. Below are the steps that can be used to create, edit or delete the setup for this.

1. Utilize the "Test an option not in your menu" option.

```
            Core Applications ...
            Device Management ...
            Menu Management ...
            Programmer Options ...
            Operations Management ...
            Spool Management ...
            Information Security Officer Menu ...
            Taskman Management ...
            User Management ...
   FM       VA FileMan ...
            Application Utilities ...
            Capacity Planning ...
            HL7 Main Menu ...
            Test an option not in your menu

You've got PRIORITY mail!

Select Systems Manager Menu <DEV> Option: Test an option not in your menu
Option entry to test: █
```

2. Input "HIGH DOSE MEDICATION ENTER/EDIT" as the "Option entry to test".

```
            Core Applications ...
            Device Management ...
            Menu Management ...
            Programmer Options ...
            Operations Management ...
            Spool Management ...
            Information Security Officer Menu ...
            Taskman Management ...
            User Management ...
   FM       VA FileMan ...
            Application Utilities ...
            Capacity Planning ...
            HL7 Main Menu ...
            Test an option not in your menu

You've got PRIORITY mail!

Select Systems Manager Menu <DEV> Option: Test an option not in your menu
Option entry to test: HIGH DOSE MEDICATION ENTER/EDI  MSCPSSMX     High Dose Med
ication Enter/Edit

Select PHARMACY ORDERABLE ITEM NAME: █
```
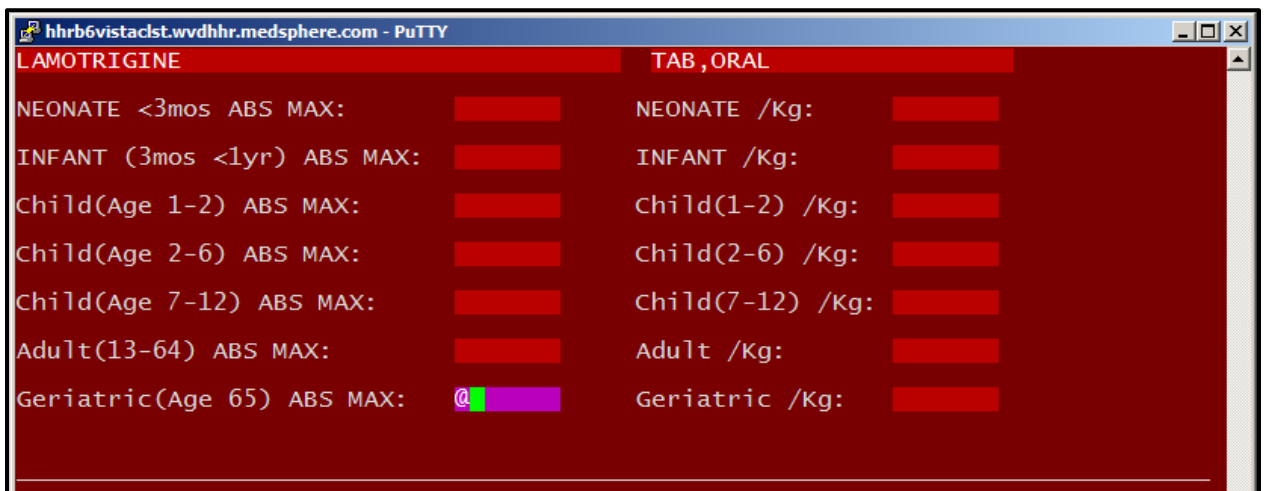

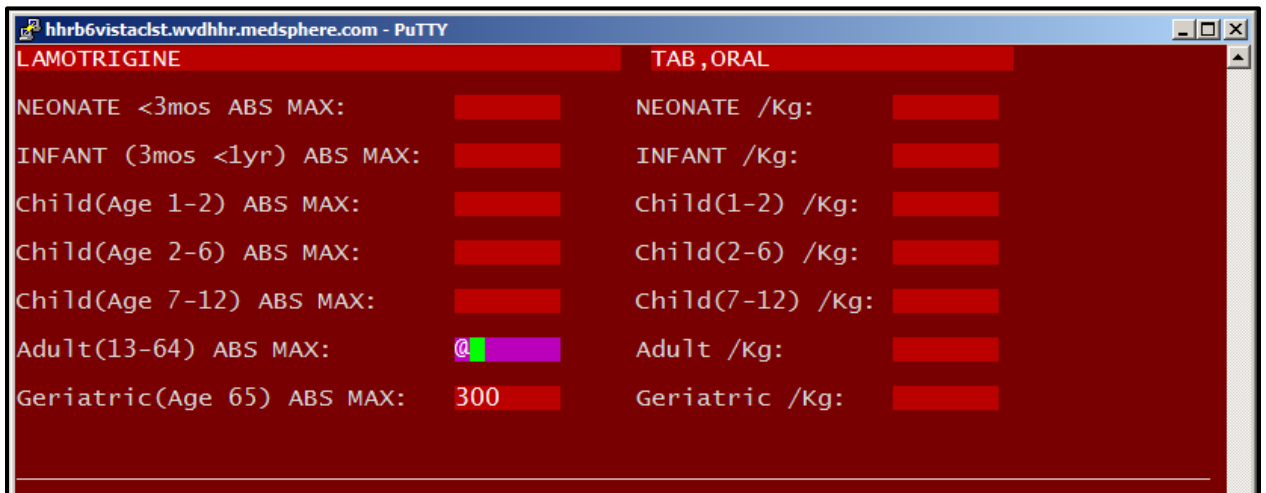

3. Enter the "PHARMACY ORDERABLE ITEM NAME" and select the correct entry.

```
Select Systems Manager Menu <DEV> Option: Test an option not in your menu
Option entry to test: HIGH DOSE MEDICATION ENTER/EDI  MSCPSSMX     High Dose Med
ication Enter/Edit

Select PHARMACY ORDERABLE ITEM NAME: LAMOTRIGINE
     1   LAMOTRIGINE       TAB,ORAL
